

# EXPLORING AND EXPLOITING NATURE WITH BIOMIMETICS

*Multidisciplinary talks in this symposium  
will focus on utilization of the eloquence of natural  
processes as a platform for technological advancement  
in fields such as:*

**Organic Chemistry**  
**Biochemistry**  
**Bioinorganic Chemistry**  
**Computational Chemistry**  
**Chemical Biology**  
**Biophysics**

## Speakers include:

**Ronald Breslow**  
Columbia University

**Song Jin**  
University of Wisconsin-Madison

**Lawrence Que**  
University of Minnesota

**Vincent Pecoraro**  
University of Michigan

**Michael Hecht**  
Princeton University

**Julius Rebek Jr.**  
The Scripps Research Institute

**Deborah Kuchnir Fygenon**  
University of California, Santa Barbara

**Marcus Weck**  
Georgia Institute of Technology

**Claudia Schmidt-Dannert**  
University of Minnesota

**Eric Kool**  
Stanford University

**Anna Mapp**  
University of Michigan

**Sergey Kozmin**  
University of Chicago

**Mehmet Sarikaya**  
University of Washington

**Matthew Cordes**  
University of Arizona

**Dirk Trauner**  
University of California, Berkeley

**Luke Lee**  
University of California, Berkeley

**Robert Szilagy**  
Montana State University

**Jon Parquette**  
The Ohio State University

**Laura Kiessling**  
University of Wisconsin-Madison

**CHICAGO**  
**ACS NATIONAL**  
**MEETING**  
**MARCH 25-29, 2007**
